of West Georgia

2022 ANNUAL REPORT

ABOUT RAPHA CLINIC OF WEST GEORGIA

Story

The [Rapha Clinic of West Georgia \(Rapha\)](#) is a faith-based, non-profit, charitable ministry serving uninsured adults in West Georgia (Carroll, Douglas, Haralson, Heard, and Paulding counties). Volunteer professionals provide high quality medical and dental care to those most in need. In addition to the best healthcare, Rapha patients receive spiritual support and guidance without forcing beliefs. At Rapha, we believe that good health is everyone's responsibility.

Mission

To deliver high quality medical and dental treatment with a caring spirit to the uninsured; empowering self-respect, autonomy, and responsibility for making positive changes through Christ.

History

Rapha has been providing free medical care to adults who are at or below 200% of the federal poverty level and uninsured, since opening in 2010. From its beginning in Temple, Rapha began offering basic medical services staffed by volunteer providers. In November 2012, Rapha began providing dental care to West Georgia.

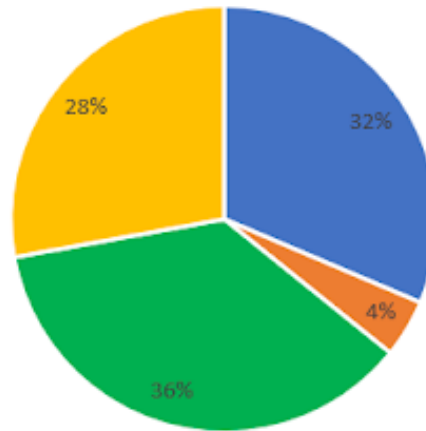

Today, Rapha supports medical and dental care, along with mammograms, healthy lifestyle classes, gynecological exams, and cardio stress testing. Through a Prescription Assistance Program, Rapha helps patients receive some or all of their medications for free. The Tanner Mammography Mobile Unit also partners with Rapha to provide screenings at the clinic.

Rapha believes that chronic health conditions have a direct correlation to spiritual health. It is through caring for the physical illness that Rapha has an opportunity to be a witness for Christ.

Rapha Clinic Medical Director Letter

Dear West Georgians,

I write this letter as part of the annual report for the Rapha Clinic of West Georgia, a faith-based medical and dental clinic for the uninsured in West Georgia. I have had the privilege and honor of working with the clinic as a board member for nearly 13 years, and I have been the Medical Director for a decade. I have practiced medicine for over 20 years, and the disparities in medical care access and quality based on socio-economic factors has always weighed heavy on my heart. The work done at the Rapha Clinic lets our clinicians and staff address those issues on a local level.

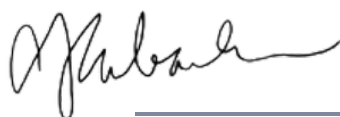

Through our devoted nurse practitioner, community volunteers, and our regular staff, we address patient suffering on multiple levels – medical, psychological, and spiritual. We are continually working to improve the physical health, health literacy and overall wellness of our patients. We also support them spiritually without pressure to accept any faith or religion, and we have guided many patients to a relationship with Jesus Christ. We also help the patients obtain needed medications through pharmaceutical company patient assistance programs and other programs open to non-profit medical and dental clinics. We see the impact in the overall improvement in control of their chronic diseases, and we also see it in decreased patient emergency room visits.

In summary, I am proud as a physician and a Christian to work with such a successful and meaningful healthcare organization.

By serving as the hands and feet of Christ in our community, we bless our community and are equally blessed ourselves in return. I look forward to growth and expansion of our services in the coming years.

Sincerely,

Amy J. Eubanks, MD, FACP
Medical Director, Rapha Clinic of West Georgia

HYPERTENSION PROGRAM.

Rapha Clinic Board Chairman Letter

Dear Rapha Clinic supporters,

I am writing this letter for the Rapha Clinic of West Georgia, a faith-based medical and dental clinic for the uninsured in West Georgia as a reflection of our past year. I have had the privilege and honor of working with the clinic as a Board Member and now the Board Chairman and Dental Director. I am a dentist that specializes in dental care, hygiene, and prevention and have seen the need for dental care and overall primary care for patients in the West Georgia community. The Rapha Clinic and its volunteers, staff, and clinicians are doing incredible work for patients whose income may impact their ability to receive medical care. Our Faith based mission provides spiritual support to our patients along with our services that includes exams, testing, and classes with a caring spirit that empowers them. There is no pressure but only support as we guide our patients to receiving no-cost healthcare.

This past year has been incredibly successful for the clinic in all aspects despite the pandemic's unprecedented effect on healthcare. We have increased patient numbers, held multiple fundraisers such as Sound of Medicine, a 5K, and our Fore Your Health Golf Tournament, all of which we will be continuing in 2023. We have received countless grants from institutions such as the Georgia Baptist Healthcare Ministry Foundation, Georgia Charitable Care Network, and Carroll EMC. We are so thankful for these donations to our organization and want to wish them and all of our supporters God Bless. With these contributions we are in the process of hiring a dental hygienist and obtaining dental equipment which will further our mission and bless the community. I am honored to serve as the Board Chairman for the Rapha Clinic and am looking forward to the increased care we will provide through the aid of Jesus Christ.

Sincerely,

William Calhoun, DMD
Board Chairman & Dental Director, Rapha Clinic of West Georgia
